Magic Ink Information Software and the Graphical Interface by Bret Victor

Magic Ink: Information Software and the Graphical Interface

I don't understand post like this. If programming was easy, it's just the people problems that are hard, why not always have 1 programmer? If adding people just makes it harder?

Programming is Easy, Software Development is Hard

Karwai Pun is an interaction designer currently working on Service Optimisation to make existing and new services better for our users. Karwai is part of an accessibility group at Home Office Digital, leading on autism. Together with the team, she's created these dos and don'ts posters as a

Stepping Up Our Game: Re-focusing the Security Community on Defense and Making Security Work for Everyone. Since the first Black Hat conference 20 years ago, the security community, industry and the world have changed to the point that it's time to re-examine whether we're living up to our responsibilities and potential.

Black Hat USA 2017 | Briefings

Computer software, or simply software, is a collection of data or computer instructions that tell the computer how to work. This is in contrast to physical hardware, from which the system is built and actually performs the work.
