

direct and alternating currents pdf

Alternating current (AC) is an electric current which periodically reverses direction, in contrast to direct current (DC) which flows only in one direction.

Alternating current - Wikipedia

The war of the currents grew out of the development of two lighting systems; arc lighting running on alternating current and incandescent lighting running on direct current. Both were supplanting gas lighting systems, with arc lighting taking over large area/street lighting, and incandescent lighting replacing gas for business and residential ...

War of the currents - Wikipedia

This article contains information about, and offers explanations for, the electrical phenomenon that causes motor bearing defects due to micro-arcing (also referred to as shaft currents).
