This graph shows school enrollment for public and private schools in 2017 in the United States. As of October 2017, about 3.59 million students were enrolled in private colleges.

School enrollment in the United States 2017 | Statistic

Class size refers to the number of students a teacher faces during a given period of instruction. Dozens of studies on class-size reduction demonstrate its positive impact on student performance, though a smaller number of studies attempt to cast doubt on the connection between class size and student learning.
